

Versatile, high-performance forward plate compactor

Premium asphalt plates feature a durable base plate for various applications. A true combination plate for various applications in the 85-90 kg weight class.

Designed for the compaction of granular and mixed materials with some cohesive content in confined areas such as parking lots, highway and bridge construction, next to structures, curbs, and abutments. This computer designed base plate has a tapered bottom and edges for high speed and excellent manoeuvrability.
