

Paclite Cut-Off Saw – Performance Redefined

The most powerful 350 mm Paclite cut-off machine, ideal for tough tasks in construction and civil engineering. Cuts through steel, concrete, asphalt, and pipes effortlessly.

Features a high-performance cutting wheel, an optional diamond blade, and an efficient 2-MIX engine with 25% more power, 30% better fuel efficiency, and reduced emissions.

FEATURES AND BENEFITS

- **Easy Start System:** Smooth, hassle-free startup every time, unlike competitors requiring multiple attempts.
- **Unrivalled Cutting Efficiency:** High-torque motor and optimised blade rotation deliver fast, precise cuts, even on reinforced concrete.
- **Built to Last:** Heavy-duty materials and enhanced cooling technology ensure durability and consistent performance on tough job sites.
- **Superior Ergonomics:** Lightweight design, adjustable handles, and anti-vibration technology reduce operator fatigue for longer, more comfortable sessions.
- **Safety First:** Quick-stop blade system, safety guards, and dust suppression protect operators from hazards.
- **Cost-Effective:** Low fuel consumption, maintenance-friendly design, and high power efficiency make it a smart investment.
- **Versatile Use:** Cuts concrete, asphalt, stone, and brick; ideal for rescue operations in emergencies.
- **Optimised Air Filtration:** A high-efficiency system ensures reliable performance in dust-heavy environments.
- **Dynamic Balance:** Exceptional balance provides better control, comfort, and safety.

Code	DP350
Model	DP350
Engine	2 stroke, air cooled, double entry stratified charging cylinder
Weight(kg)	10,5
Displacement (cc)	74
Rated output power (kw)	3,5
Idling speed (r/min)	3300
High speed (r/min)	9500
Fuel/Oil mixture ratio	25:1
Fuel tank capacity (ml)	1100
Max cutting depth (mm)	105
Bore size (mm)	25,4 /20
Blade speed (r/min)	4800
Blade diameter (mm)	350
