

## 100% battery-powered trowels: clean, quiet, efficient.

The new M600 ECO+ and M900 ECO+ trowels mark a major step forward in concrete finishing.

The brushless electric motor delivers constant torque, ensuring consistent performance even during demanding finishing phases. Paired with a high-capacity Lithium battery, these trowels guarantee productivity, profitability and ease of use. The choice between the compact 600 mm model (M600 ECO+) and the large 900 mm model (M900 ECO+) with foldable handle provides contractors with the ideal machine for residential, industrial and general construction jobs. As with the Paclite petrol range, the new anti-vibration handle significantly reduces hand-arm vibration, making the working day more comfortable and less tiring.

## FEATURES & BENEFITS

- High-performance brushless electric motor  
Instant start, high torque, quiet operation and zero emissions.
- High-capacity Lithium battery.
- Designed to cover a full work cycle depending on surface and concrete phase. Removable battery for quick replacement.
- Ergonomic, foldable handle.
- Easy access to controls, compact storage and improved manoeuvrability on site.
- Full safety: dead-man throttle.
- Identical to Paclite petrol models and usable in all positions.
- Blade pitch adjustment on handle.
- Reversible blades for double lifespan and precise finishing.
- Transport handles+wheel kit available for easier handling and movement on site.
- Zero motor maintenance.
- No oil, no fuel, no filters: drastically reducing operating costs.
- Ideal for indoor work.
- Zero emissions: compliant for warehouses, car parks, enclosed buildings, tunnels and sensitive sites.

M600-ECO+

M900-ECO+

Code	ECO-600M	ECO-900M
Model	M600-ECO+	M900-ECO+
Trowel diameter	600 mm	900 mm
Number of blades	4	4
Trowel speed	60–130 tr/min	60–130 tr/min
Operating weight	env. 60–70 kg	env. 75–90 kg
Motor	Brushless electric	Brushless electric
Battery	Removable Lithium	Removable Lithium
Runtime	45–90 min	45–90 min
Charging time	2–3 h	2–3 h
Hand-arm vibration	Very low	Very low
Foldable handle	Yes	Yes
Dead-man safety	Yes	Yes
Sound level	≈ 68–72 dB(A)	≈ 70–74 dB(A)
