

PORTA-LIGHT TL225

Battery powered portable lighting tower

The lightweight and portable battery-powered lighting tower

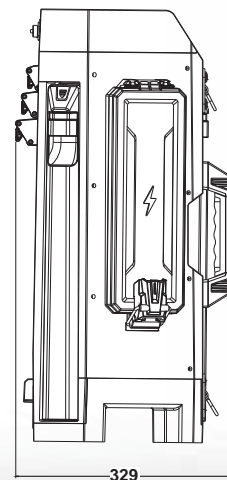

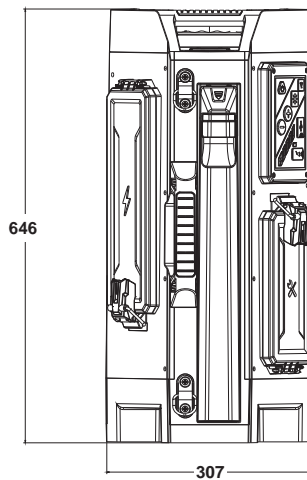

PORTA-LIGHT is not just a new lighting tower, but ALL IN ONE" embodies all PACLITE innovations and new technologies. This product is bringing together contractor and rental needs in one single product.

Long-lasting trihybrid battery pack with a high rate of charge and excellent performance at higher temperatures.

FEATURES AND BENEFITS

- Lightweight, easy to transport, only 12 kg.
- Bright & adjustable power - 8000 lm and 15000 lm, brightness control in 4 modes.
- Dimming driver.
- Pivotal dual headlamps, adjustable in any direction.
- Fast-charging batteries.
- Included 3 batteries & USB charger.

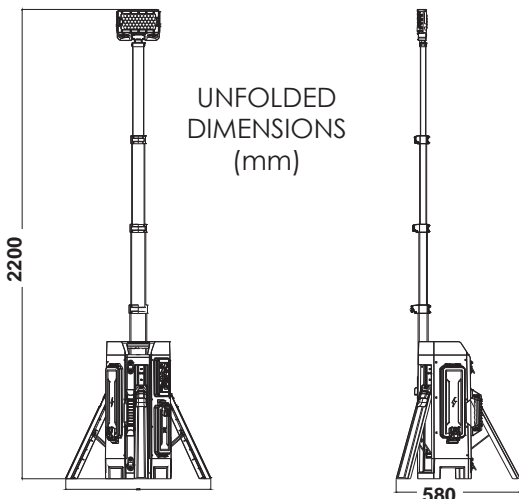

Powerful – Easy – Modular – Economical

Overall Dimensions (mm)

LED FLOODLIGHTS WITH ADJUSTABLE LIGHT POWER

UNFOLDED DIMENSIONS (mm)

Code	PORTA-LIGHT
Model	PORTA-LIGHT TL225
Lumen (lm)	800 - 3000 - 5000 - 8000
Time of endurance (D24-54 x 3) (h)	48 h - 19,5 h - 7,5 h - 5 h
Light AC lumen (lm)	15000
Power	230 V (50-60 Hz) & 110 V (50-60 Hz)
Battery power @	8000 lm - 10 hours
Net weight with battery (kg)	12,8
Size (mm)	309 x 303 x 645
Beam angle	40 °
Usage mode	Portable
Input voltage	DC 24 V (Battery) DC 36 V (Constant current power supply)
Battery	x 3
USB socket	x 2
USB socket output	5V 2A
Number of support legs	x 4
Height (m)	0,645 - 2,25
Lamp head horizontal rotation angle	330 °
Lamp head vertical rotation angle	170 °
Working temperature	-10 - 50
Working humidity	1 - 98 %
IP grade	IP 65
Material	Aluminum+Plastic composite
Packing size (not including battery) (mm)	705 x 365 x 385
