

## High-quality blades and discs to get the best performance from your Pro Trowel.

PACLITE trowel blades are made out of blue steel to offer endurance and the most resistant quality in the industry. Our blades are made with extra polished rivets, which ensure stability against the concrete surface, avoiding resistance to bending. Purchase only original PACLITE accessories!

## FEATURES AND BENEFITS

- High-quality, long-wear replaceable blades, pans, and discs.
- Competitive prices.
- Accurate fit and genuine parts.
- Blades and pans are interchangeable with most other brands.
- PACLITE supplier of your trowel blades, no matter the machine type.
